G.E.C. JOURNAL

OF SCIENCE AND TECHNOLOGY

VOLUME 34, 1967

Published by: **THE GENERAL ELECTRIC COMPANY LIMITED OF ENGLAND**

Head Office: P.O. Box No. 120, 1 Stanhope Gate, London, W.1

Correspondence to: The Editor, Hirst Research Centre, Wembley, Middlesex

INDEX

volume 34, 1967

Inclusive page numbers for the year's issues are:

No. 1 (February) ..... 1 to 44
No. 2 (June) ..... 45 to 88
No. 3 (October) ..... 89 to 140

PAGE

A

Air-traffic control — V.H.F. satellite communication for 90
Ariel III — Electronics in: first British-built satellite 67
Automatic steering of coal-cutting machines 61

B

Bi-directional thyristor drives for a steelworks process line 98
Brazing — High-temperature, of molybdenum: barrier-layer technique enhances reliability 129

C

Chromatography — Pyrolysis gas: a sensitive technique to detect organic traces 28
Coal-cutting machines—Automatic steering of 61
Communication receiver design—A new approach to h.f. 118
Compatibility of satellite and terrestrial communication systems 29
Cryostat — Liquid-helium, for X-ray diffractometry 130
Crystals—Studying the perfection of, by X-ray diffraction topography 66

D

Developments in filter design 111
Digital determination of angular position —Remote reading of registers by 84
Digital transmission of speech over telephone lines—Pulse-code modulation 2
Distortion in microwave trunk-radio systems 75

PAGE

E

Electronic equipment—The reliability of 17
Electronics in Ariel III: first British-built satellite 67

F

Features of a static reactive power supply for polyphase inverters 38
Filter design—Developments in 111
Floodlighting by high-pressure sodium-vapour lamps 37
Fluids, hot corrosive — Reciprocating-jet pump for 9

G

Gold mine — Winder drive for large South African 86

H

H.F. communication receiver design — A new approach to 118
High-pressure sodium-vapour lamps — Floodlighting by 37
High-temperature brazing of molybdenum: barrier-layer technique enhances reliability 129
Hot-strip mill—Modernization of a 54

L

Liquid-helium cryostat for X-ray diffractometry 130

PAGE

M

Microwave trunk-radio systems—Distion in 75
Modernization of a hot-strip mill 54
Molybdenum—High-temperature brazing of: barrier-layer technique enhances reliability 129

N

Neutron velocity selector 109
New approach to h.f. communication receiver design—A 118

O

Organic traces—Pyrolysis gas chromatography: a sensitive technique to detect 28

P

Performance measurement—Telephone 131
Polyphase inverters—Features of a static reactive power supply for 38
Process line — Bi-directional thyristor drives for a steelworks 98
Pulse-code modulation: digital transmission of speech over telephone lines 2
Pump — Reciprocating-jet, for hot corrosive fluids 9
Pyrolysis gas chromatography: a sensitive technique to detect organic traces 28

R

Reciprocating-jet pump for hot corrosive fluids 9
Reliability of electronic equipment—The 17
Remote reading of registers by digital determination of angular position 84

PAGE

S

Satellite and terrestrial communication systems—Compatibility of 29
Satellite communication—V.H.F., for air-traffic control 90
Satellite—Electronics in Ariel III: first British-built 67
Sintered turbine blades for arduous temperature and stress conditions 46
Static reactive power supply for polyphase inverters—Features of a 38
Steelworks process line—Bi-directional thyristor drives for a 98
Studying the perfection of crystals by X-ray diffraction topography 66
Synopses 44, 88, 140

T

Technical literature 43, 87, 138
Telephone lines—Pulse-code modulation: digital transmission of speech over 2
Telephone performance measurement 131
Thyristor drives—Bi-directional, for a steelworks process line 98
Trunk-radio systems — Distortion in microwave 75
Turbine blades—Sintered, for arduous temperature and stress conditions 46

V

Velocity selector—Neutron 109
V.H.F. satellite communication for air-traffic control 90

W

Winder drive for large South African gold mine 86

X

X-ray diffraction topography — Studying the perfection of crystals by 66
X-ray diffractometry — Liquid-helium cryostat for 130
